- Carotid stenting (X2)
- Cardio surgery
- AAA
- EVITA
- Vascular surgery

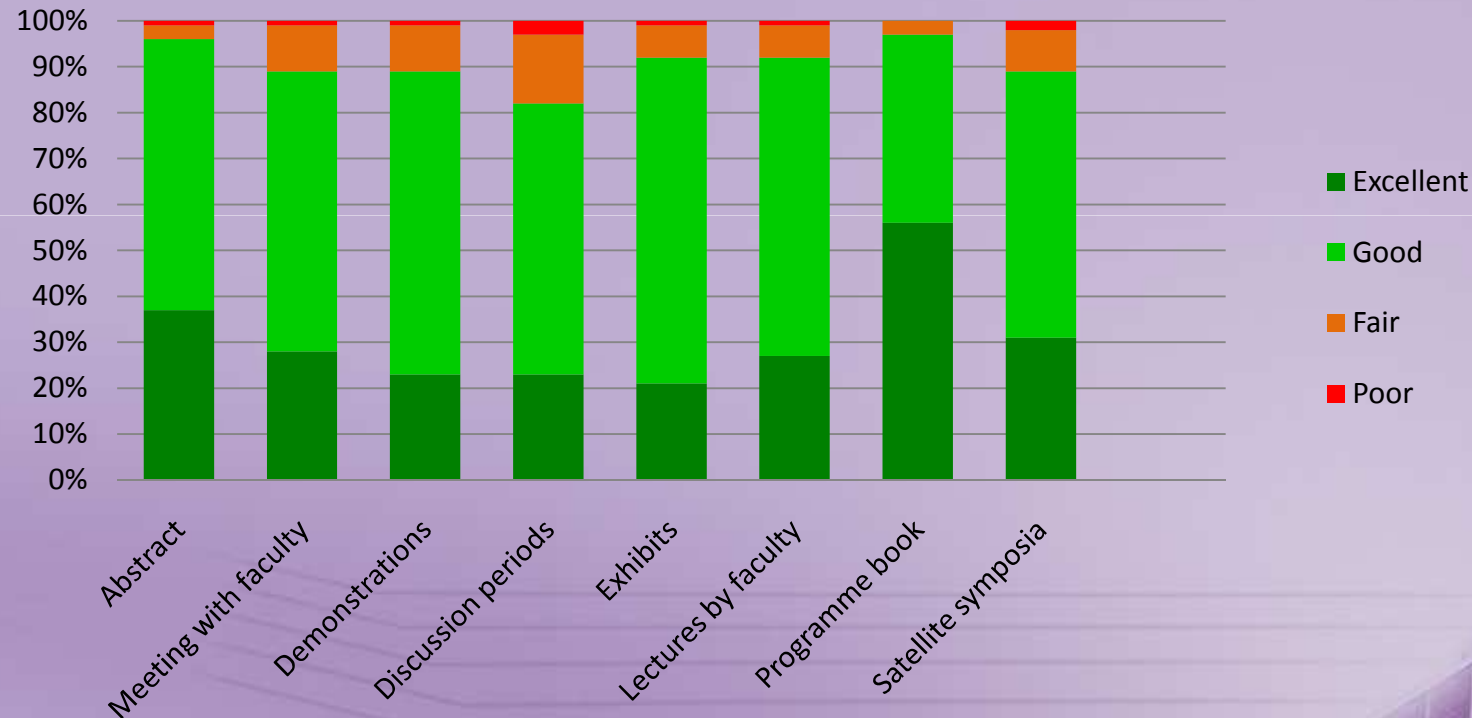

## Did the congress fulfill this goal?

We can say that 97% of the delegates were satisfied by the Congress

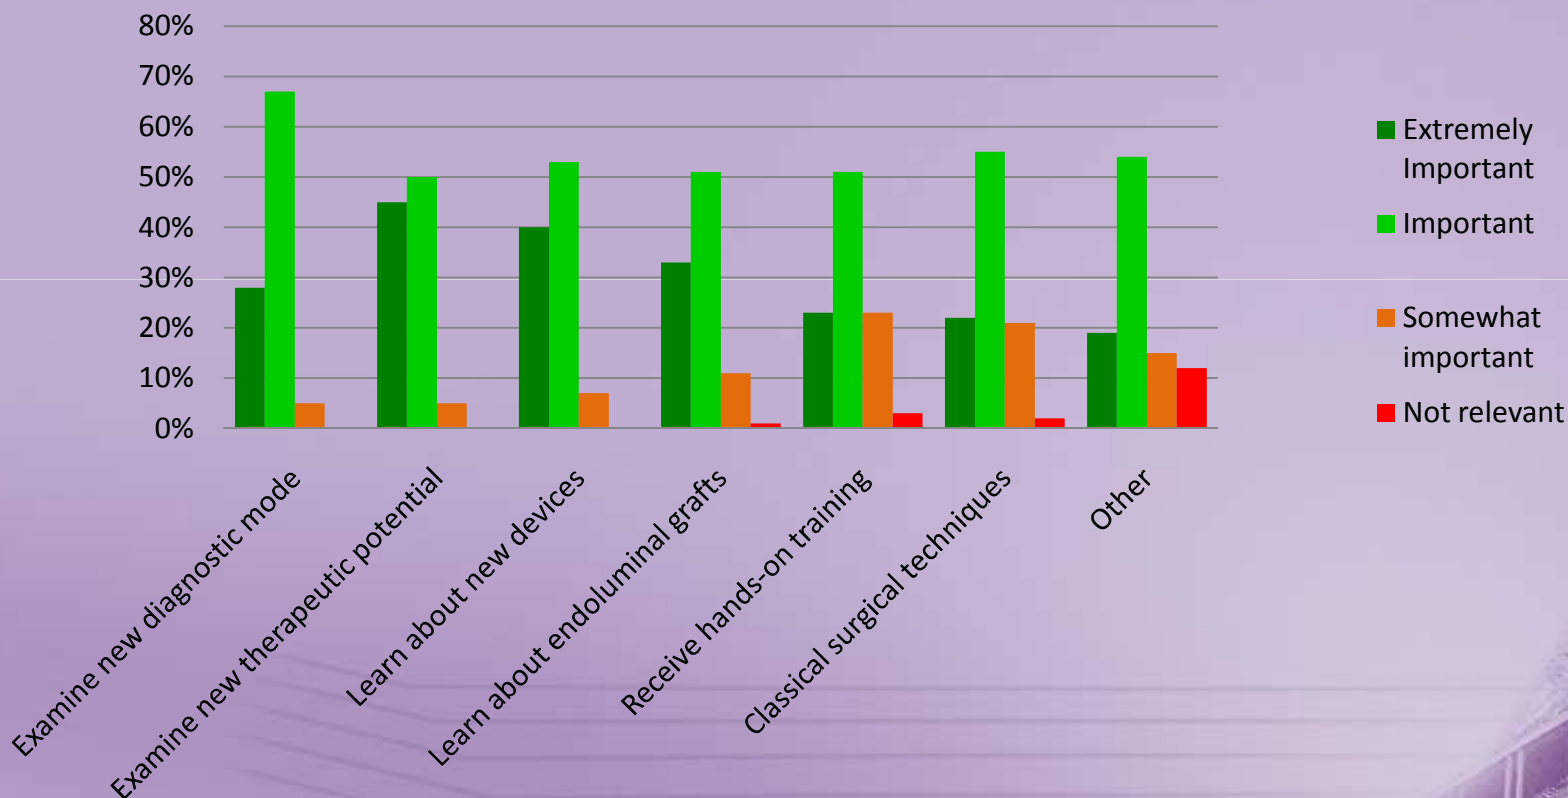

## Evaluation and rate of the elements of the meeting in fulfilling your goal

96% were satisfied with the abstracts and 56% of the participants found the program book excellent; attendees were less satisfied concerning discussion periods.

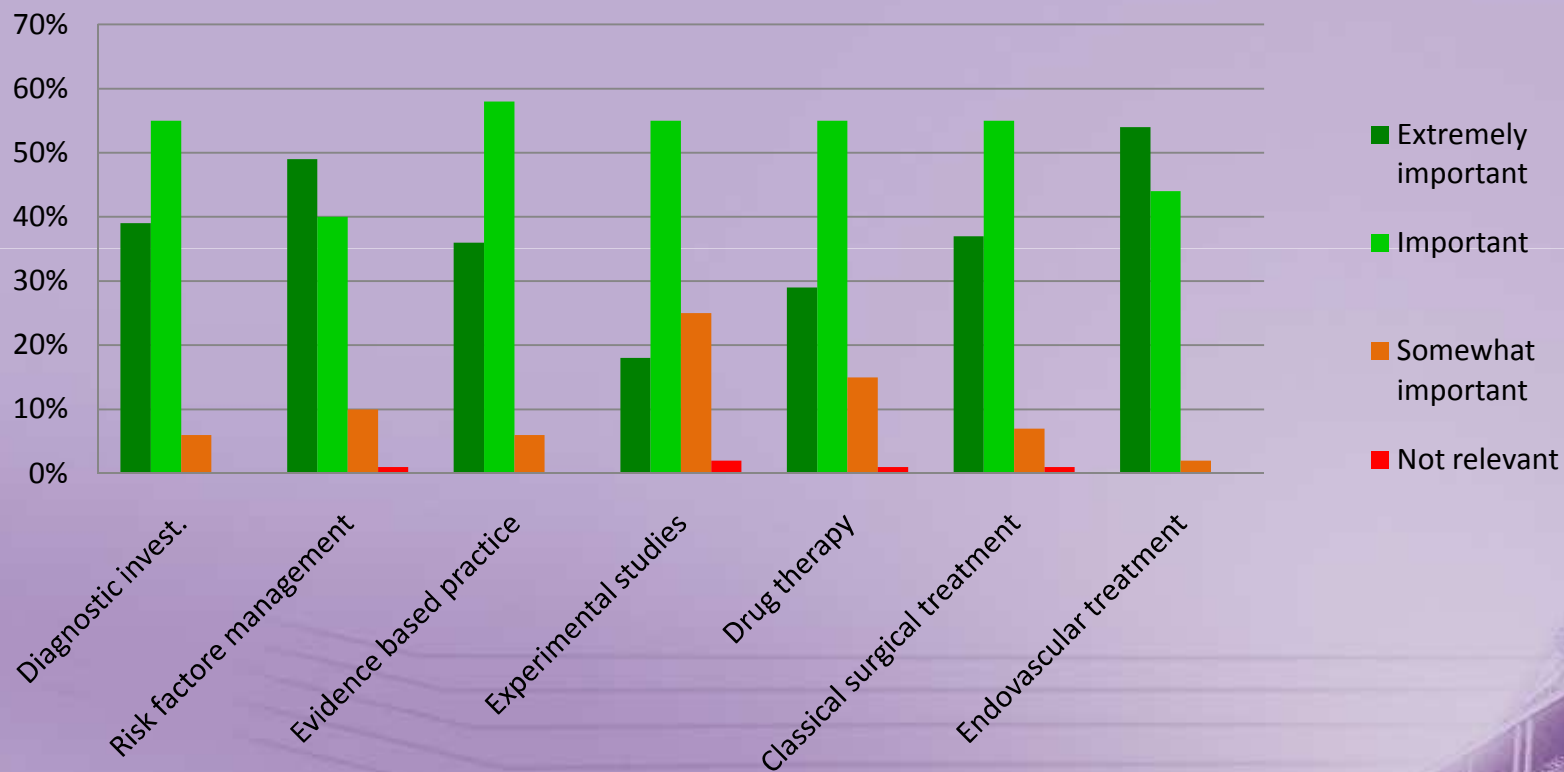

## Rating of the educational needs

They need over all to examine new diagnostic mode. However, the other needs are important except for receive hands-on training, classical and surgical techniques.

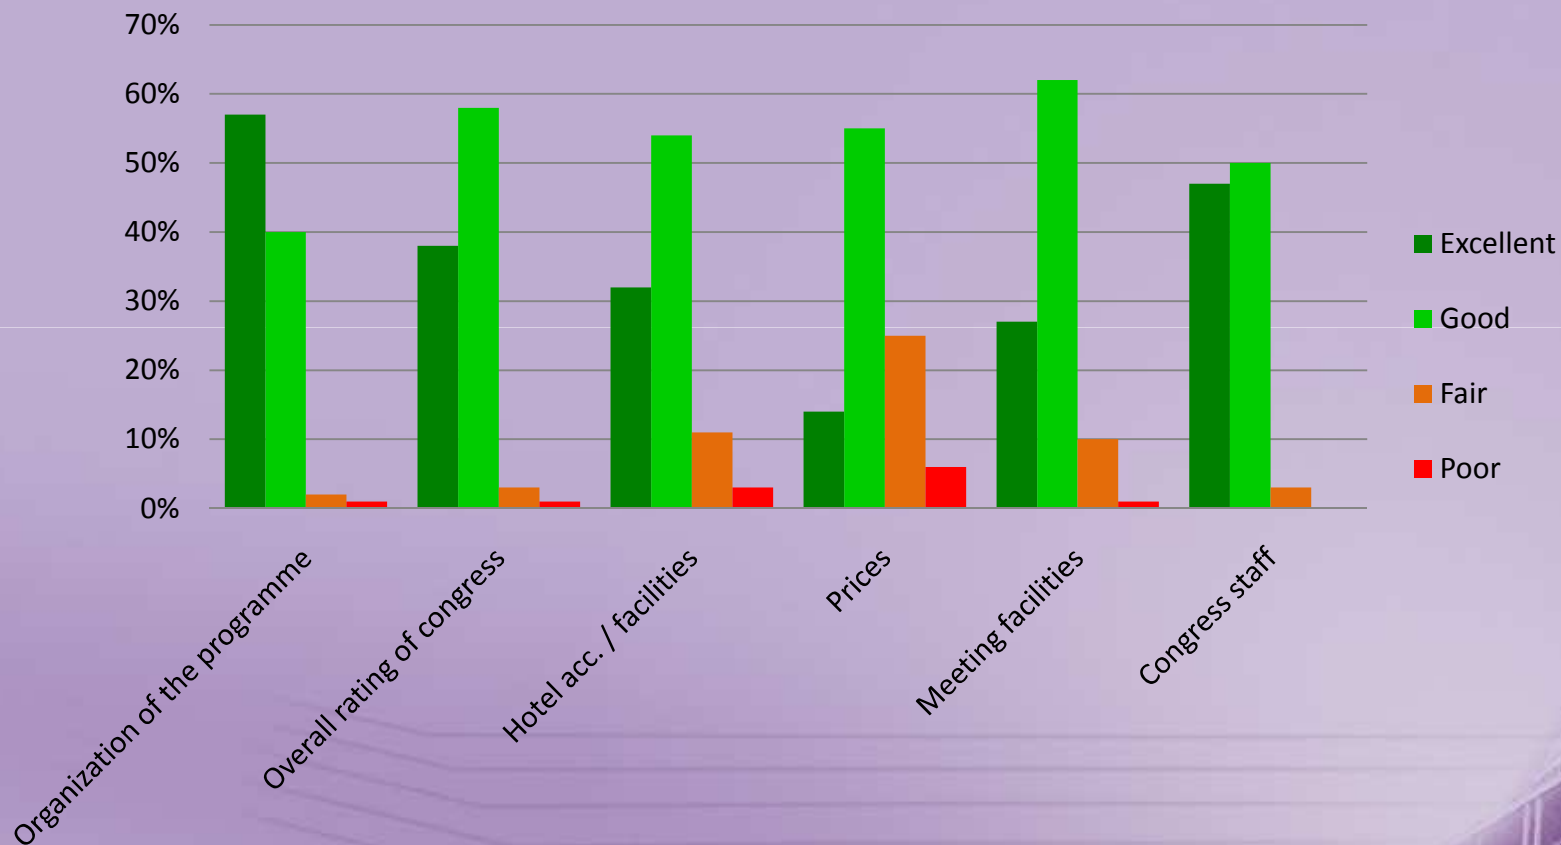

## Importance of the following topics to your practice

The endovascular treatment is the most important topic (more than 50% of attendees answered it is extremely important). All topics seemed important except for experimental studies.

## General rating

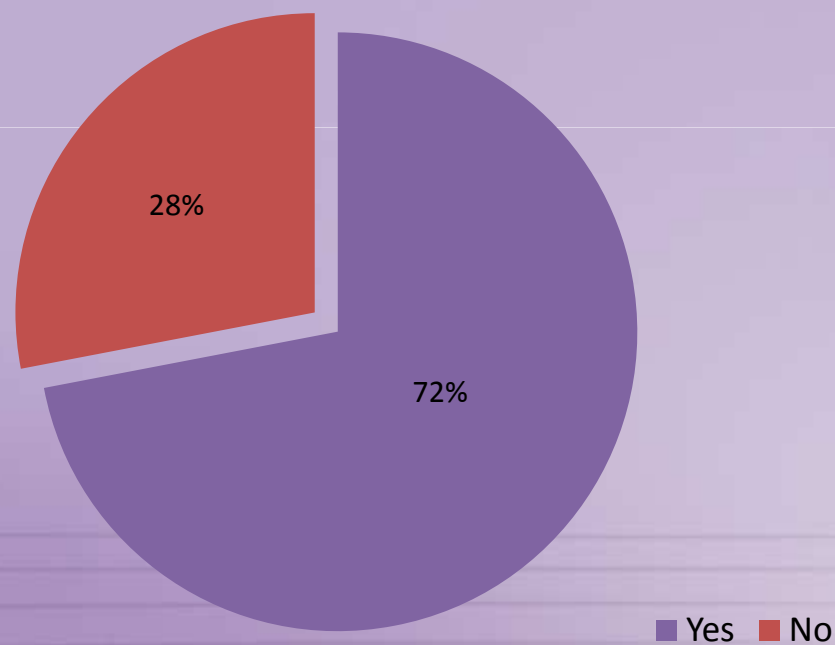

Results for the Organization of the program and the Congress Staff show that this Congress was a success, we can underline that prices have the worst score.

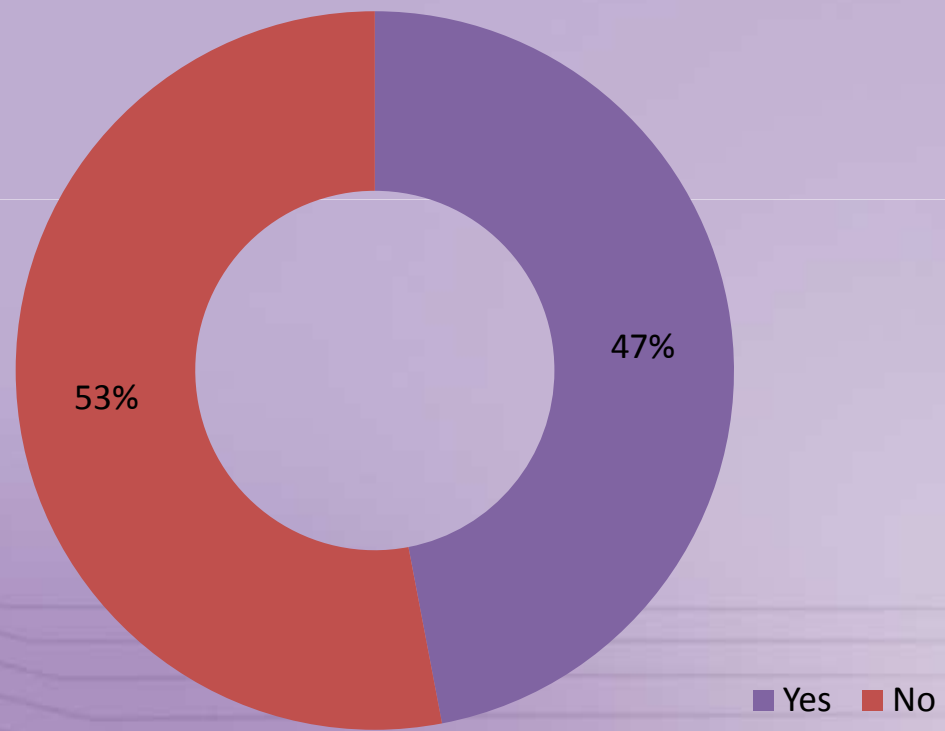

## Are you interested by the Venous Session?

## Suppression of the abstract book

## Summary of the information received

- Learn about new devices, new procedures and new endovascular therapies (X16)
- Excellent for update and new technologies (x4)
- Overall update of emergency / new techniques (X2)
- Improvement of knowledge (X2)
- To deal with difficult cases
- Experience in therapeutic techniques
- Endovascular treatment of popliteal aneurysm
- Visceral artery aneurysm
- Learn about endoluminal grafts
- Examine new therapeutic potential
- Examine new diagnostic modes
- Aortic devices: very good
- Aortic endovascular
- Coelioscopic Workshop
- Excellent laparoscopic workshop
- Meeting with people
- Meeting with the exhibitors
- Carotid and endovascular
- Endovascular and surgery are still married !
- Imaging
- Anticoagulation

## Further Comments

- Good, excellent (X15)
  - Well organized / As usual perfectly organized (X2)
  - Very good staff
  - This meeting stays interesting every year
- 
- Too many attendees, provide a bigger place for 2011 (X7)
  - Speak of vascular readaptating for AOMI
  - More workshops must be done
  - One more day should be necessary
  - Identify the conferences rooms on the program
  - More practical videos
  - A French edition of the congress book is desirable
  - Not enough subjects
  - Organisation could be better
